**FISCAL IMPACT STATEMENT**

**LS 6412**

**BILL NUMBER:** SB 142

**NOTE PREPARED:** Feb 2, 2010

**BILL AMENDED:** Jan 28, 2010

**SUBJECT:** Disabled Hoosier Veteran License Plate.

**FIRST AUTHOR:** Sen. Delph

**FIRST SPONSOR:** Rep. Reske

**BILL STATUS:** As Passed Senate

**FUNDS AFFECTED:**    **GENERAL**  
                          **X DEDICATED**  
                          **FEDERAL**

**IMPACT:** State

**Summary of Legislation:** (Amended) This bill renames the Disabled Veteran license plate the Disabled Hoosier Veteran license plate. A person who receives a Disabled Hoosier Veteran license plate for a walking impairment and who has a service-connected disability of lower than 40%, must also show on the disability certificate that the eligibility for the license plate is due to a walking impairment. The bill provides for only one design for Disabled Hoosier Veteran license plates. It repeals the provision requiring two distinct designs for Disabled Veteran license plates.

**Effective Date:** July 1, 2010.

**Explanation of State Expenditures:** (Revised) *Renaming of License Plate:* PEN PRODUCTS, the manufacturing and sales arm of prison-made products, will charge the Bureau of Motor Vehicles (BMV) \$3.69 per plate for the renamed Disabled Hoosier Veteran license plate. This is the same charge as for the current Disabled Veteran license plate. Also, there will be a \$450 design fee for the change required in the new license plate. The funds affected are the PEN PRODUCTS Revolving Fund and the Motor Vehicle Highway Account, which supports the BMV.

Providing for only one design for Disabled Hoosier Veteran license plates will reduce expenditures for both PEN PRODUCTS and the BMV by an unknown amount.

(Revised) *Service-Connected Disability:* The proposed statutory change to the service-connected eligibility requirement conforms statute to current practice.

**Background Information:** For the last three full calendar years (2006, 2007, 2008), approximately 9,400

Disabled Veteran license plates have been issued annually. For the period January 2009 through November 16, 2009, about 9,037 Disabled Veteran license plates have been issued. There is no additional fee for the Disabled Veteran license plate. PEN PRODUCTS reports that they have switched to a digital process, which means they primarily produce plates on demand. This means they do not make a plate until they have an order from the BMV, which results in a minimal inventory. Current inventory of the Disabled Veteran license plate is zero plates.
